

## Olympic Road Closures

The BCCLA has reviewed public documents available on the City of Vancouver and VANOC web pages, as well as documents received from the Vancouver 2010 Integrated Security Unit through an Access to Information request, in order to compile a list of Olympic road closures.

The road closures have varying dates within the three month Olympic timeframe. Also, some roads are closed 24 hours a day, while others are only closed in the afternoons and evenings (the pedestrian corridors). Some of the roads are described as “closed” while others are for residents only, or have “restricted access.”

The roads in bold (see below) are those which are contained in the documents obtained through the Access to Information request, but are not clearly described in the publicly available documents. The documents used to compile this list are confusing and often contradictory. Accuracy is not guaranteed.

The public currently has no single, comprehensive, and easy to understand document which lists and describes **all** proposed road closures.
